General Maintenance

Natural Stone, vinyl, linoleum and hardwood floors can be extremely durable, but they require proper maintenance to preserve their resilience and shine. We offer Floor Maintenance services that rejuvenate and revitalize your hard floors. These services include floor stripping, refinishing, sealing and polishing to restore the look of your floors surface and make them appear as good as new using only diamond pads.

## Natural Stone Floor

Preserve the beauty of your natural stone floors with our professional Floor Maintenance Services. Let our floor refinishing team grind your marble, limestone, granite and other natural stone floors to remove scratches and etches. We'll seal the surface to restore its original lustre and to withstand penetration of liquid spills and dirt.

## Vinyl and Linoleum Floor

Without proper maintenance, vinyl and linoleum floors lose their sheen. These types of floors can develop an unsightly yellow discoloration. This soiled film together with deep scratches and abrasions acts like a magnet that attracts more dirt and grime. We can remove your floors old polish and sealer, reseal it with a high-quality sealer and buff the surface. This sealer and gloss finish will protect and extend the wear of your floor, reduce marks and scratches and guard against soil penetration and abrasion.

NEW ECO provides grass cutting/ Lawn Cutting services to people in your neighborhood with reliable and professional services at a reasonable rate. Our clients enjoy returning home to the smell of freshly cut grass, instead of an unruly yard that requires you to get out the lawnmower at the end of your busy day. Time is so important these days, making it almost impossible to keep up with the grass cutting that is required to have great looking, healthy turf. When you get weekly grass cutting services from The Gardener, you will appreciate your great looking property, and enjoy more time to relax.

Our weekly maintenance includes:

- ☒ Professional grass cutting.
- ☒ Edging of walks and flowerbeds.
- ☒ Removal of all clippings from patios, walkways and driveways.
- ☒ Most important, you enjoy your yard not working in it!

We offer a comprehensive Hedge cutting, height reduction & hedge removal service. We plant new hedges. We can tackle the super large jobs and those small jobs to help make your garden brighter, tidier and well-maintained.

We also provide a range of Tree Surgery, Tree Dismantling and Tree Felling services. We offer a Stump grinding service including narrow access stump grinding. We like to plant Trees too and help you make your outdoor space a brighter and more enjoyable place to be.
